

REFRESHING YOUR CHURCH PLANTING INNOVATION ECOSYSTEM

**CHURCH MULTIPLICATION
INSTITUTE**

**When it comes to ecosystems,
think people, partnerships, and
platforms.**

- Who are 5-10 Gen-Z leaders helping your organization in a meaningful way?
- How can you partner better with organizations led by emerging leaders, specifically Gen-Z?
- What are the structures & support needed to sustain young leaders?

- Who is helping you to remember your distinctives in a fresh way?
- Which demographics are not connecting with your mission?
- Which spaces are you creating/entering to tell your story?

- What are the driving motivations for your research questions?
- Who is helping you get better and unbiased information?
- Which partners are helping you become more self-aware as an organization?

- Which groups are you learning directly from when it comes to new models and methods?
- Where are the spaces in your organization that tolerates high innovation and high failure rates?
- How much space is devoted to prayer, worship, and hearing from God as an organization?

EVALUATION

HOW MUCH ENERGY IS
GIVEN TO YOUR
INNOVATION ECOSYSTEM?

Putting out
(unnecessary)
fires

Maintaining current
systems and strategies

Investing in your
innovation
ecosystem

How is your organizational energy currently distributed?
